ii Gregor Johann Mendel 1822–1884

165 Abstracts from XII Tromsø-Seminar in Medicine, June 19–22, 1983, University of Tromsø, Norway. Cancer and Genetics

111 Ajayi, N. O., Bergman, R., Lindh, U., Sundquist, B., Laszlo, G. and Koersner, I.: The viability of barley seeds subjected to 6 MeV deuteron beam

115 Annerén, G., Gustavson, K.-H. and Jagell, S.: Partial trisomy for the distal part of chromosome 22(22q12→qter) in a mentally retarded girl with congenital birth defects

45 Annerén, G. and Lübeck, P.-O.: Trisomy 4q31→qter due to a maternal 4/8 translocation

29 Axelsson, R. and Wahlström, J.: Chromosome aberrations in patients with paranoid psychosis

225 Balasaraswathi, R., Køie, B. and Doll, H.: The concentration and yield of hordein and some lysine-rich proteins as influenced by the *lys* gene of Hiproly barley

131 Bekele, E.: Analyis of regional patterns of phenotypic diversity in the Ethiopian tetraploid and hexaploid wheats

271 Bekele, E.: Relationships between morphological variance, gene diversity and flavonoid patterns in the land race populations of Ethiopian barley

299 Brøgger, A., Norum, R., Hansteen, I.-L., Clausen, K. O., Skårdal, K., Mitelman, F., Kolnig, A.-M., Strömbeck, B., Nordenson, I., Andersson, G., Jakobsson, K., Mäki-Paakkanen, J., Norppa, H., Järventaus, A. and Sorsa, M.: Comparison between five Nordic laboratories on scoring of human lymphocyte chromosome aberrations

259 Frykman, I. and Bengtsson, B. O.: Genetic differentiation in *Sorex*. III. Electrophoretic analysis of a hybrid zone between two karyotypic races in *Sorex araneus*

155 Frykman, I. and Simonsen, V.: Genetic differentiation in *Sorex*. II. An electrophoretic comparison between *Sorex araneus* and three other shrew species

51 Ferreira, A., Cella, D. M., Mesa, A. and Virkki, N.: Cytology and systematical position of Stylopids (= Strepsiptera)

93 Granzow, C. and Nielsén, K.: A genome mutation in three related sublines of the Ehrlich-Lettré mouse ascites tumor

1 Gustavsson, I. and Settergren, I.: Reciprocal chromosome translocation with transfer of centromeric heterochromatin in the domestic pig karyotype

17 Haapala, O.: Chromatid macrocoiling and chromosome compaction

75 Haapala, O.: Metaphase and chromomere banding are distinct entities of chromosome substructure

87 Hansteen, I.-L., Jelmert, Ø., Torgrimsen, T. and Førsund, B.: Low human exposure to styrene in relation to chromosome breaks, gaps and sister chromatid exchanges

11 Juneja, R. K., Weghe, A. van de and Gahne, B.: Genetic polymorphism of serum postalbumin (Po) and pretransferrin (Prt) in the laboratory rabbit

83 Karlsson, J. L.: Creative intelligence in relatives of mental patients

7 Kristoffersson, U. and Bergwall, B.: Partial trisomy 15(q25qter) in two brothers

295 Kvelland, I.: An investigation of the mutagenic activity of four hair dyes in bacteriophage T4D

121 Lake, S.: Variation in the recombination frequency and the relationship to maternal age in brood analysis of the distal and centromeric regions of the X-chromosome in temperature shocked reciprocal hybrids of inbred lines of *Drosophila melanogaster*

33 Linde-Laursen, I.: Nucleolus organizer polymorphism in barley, *Hordeum vulgare* L.
219 Linde-Laursen, I.: Giemsa C-banding of barley chromosomes. IV. Chromosomal constitution of autotetraploid barley
67 Linde-Laursen, I. and Jensen, J.: Separate location of parental chromosomes in squashed metaphases of hybrids between *Hordeum vulgare* L. and four polyploid, alien species
243 Lüning, K. G.: Genetics of inbred *Drosophila melanogaster*. XI. Further tests of the effects of cytoplasm and maternal genotype on primary non-disjunction and chromosome loss
247 Lüning, K. G., Lake, S. and Linde, M.: Genetics of inbred *Drosophila melanogaster*. XII. Effects of an X-chromosome inversion on primary and secondary non-disjunction
183 Merker, A.: The rye genome in wheat breeding
61 Nokkala, S. and Nokkala, C.: N-banding pattern of holokinetic chromosomes and its relation to chromosome structure
299 Nokkala, S. and Nokkala, C.: The occurrence of the X0 sex chromosome system in *Dictyonota tricornis* (Schr.) (Tingidae, Hemiptera) and its significance for concepts of sex chromosome system evolution in Heteroptera
53 Salemaa, H.: Polyploidy in the evolution of the glacial relict *Pontoporeia* spp. (Amphipoda, Crustacea)
199 Sandberg, K. and Andersson, L.: Genetic linkage in the horse. I. Linkage relationships among 15 blood marker loci
193 Sirkkomaa, S.: Models for the gametic diversity producible by an individual
233 Sirkkomaa, S.: Effects of inbreeding on the response to selection in a simulated population
161 Väisänen, R. A. and Lehväslaiho, H.: Absence of genic polymorphism in a northern population of the house sparrow, *Passer domesticus*
